Visualizing Risk From Space:

Opportunities for Risk-Informed Early Action

Thursday, 10 September, 2020

13:30–14:00 Geneva time/CEST

Session #121 Ask Anything – Expert Talk

Organizers: National Aeronautics and Space Administration (NASA) and IFRC

ACT | EMPOWER | INFLUENCE | TRANSFORM

While disaster managers and frontline volunteers can often understand the myriad risks facing the area, disaster impacts are often amplified far beyond a single community perspective. What if we were able to visualize these impacts at greater temporal and spatial scales and in an interconnected manner that can support early action before a crisis occurred? Join us for a live expert talk with Dr. Shanna McClain (NASA) and Kara Siahaan (IFRC) on topics of risk, space, and everything in between.
